

Joshua Portner joined Google's Bay Area Real Estate and Workplace Services (REWS) team in 2013. As a Development Executive, Portner's responsibilities include feasibility analysis, real estate entitlements, and design and construction management. During his time at Google, he has led multiple innovative office campuses in Sunnyvale, San Bruno, and NASA Ames.

Previous to Google, Portner spent 3 years as the VP of Development and Construction for Sares Regis Group of Northern California and was Senior Project Manager for Webcor Builders. He has a wealth of experience serving as a liaison between property owners and architects, managing project budgets, and managing subcontractors throughout design, coordination and construction. During his career, he's overseen the development of almost \$2.5 billion in commercial, residential and hospitality real estate projects. Notable projects included the management of the construction of the \$270 million Letterman Digital Arts Center in San Francisco's Presidio and the nearly \$1 billion J.W. Marriott Hotel and Residences at LA Live! in Los Angeles.

Mr. Portner graduated from the University of California, Davis, with a B.S. in Civil Engineering in 2000.
